

# European High Quality Yarns

Linz Textil is Europe's leading manufacturer of yarns, greige fabric and terry towels. Since 1838 it is our passion to provide innovative and sustainable solutions for both fashion and technical textile applications. We enjoy a worldwide reputation as a reliable partner in the textile processing chain.

A sense of responsibility towards people as well as the environment is an elemental aspect of our claim to qualitative and technological superiority. Linz Textil actively pursues a policy of the greatest possible conservation of all resources employed and systematic action in harmony with nature.

Linz Textil yarns are suitable for a wide range of applications. Brilliant colours and pronounced skin friendliness ensure optimum climatic characteristics, and in addition our innovative product portfolio offers a wealth of exciting possibilities.

### **FIBERS**

### **CELLULOSIC YARNS**

page 5

Diversity of touch variations and top-quality appearance of the fabric guaranteed.

### **BLENDED YARNS**

page 8

Adding value and wearing comfort through a perfect marriage of the blending partners.

### SYNTHETIC YARNS

page 10

Consistently high quality for technical textile applications.

### SPINNING TECHNOLOGY

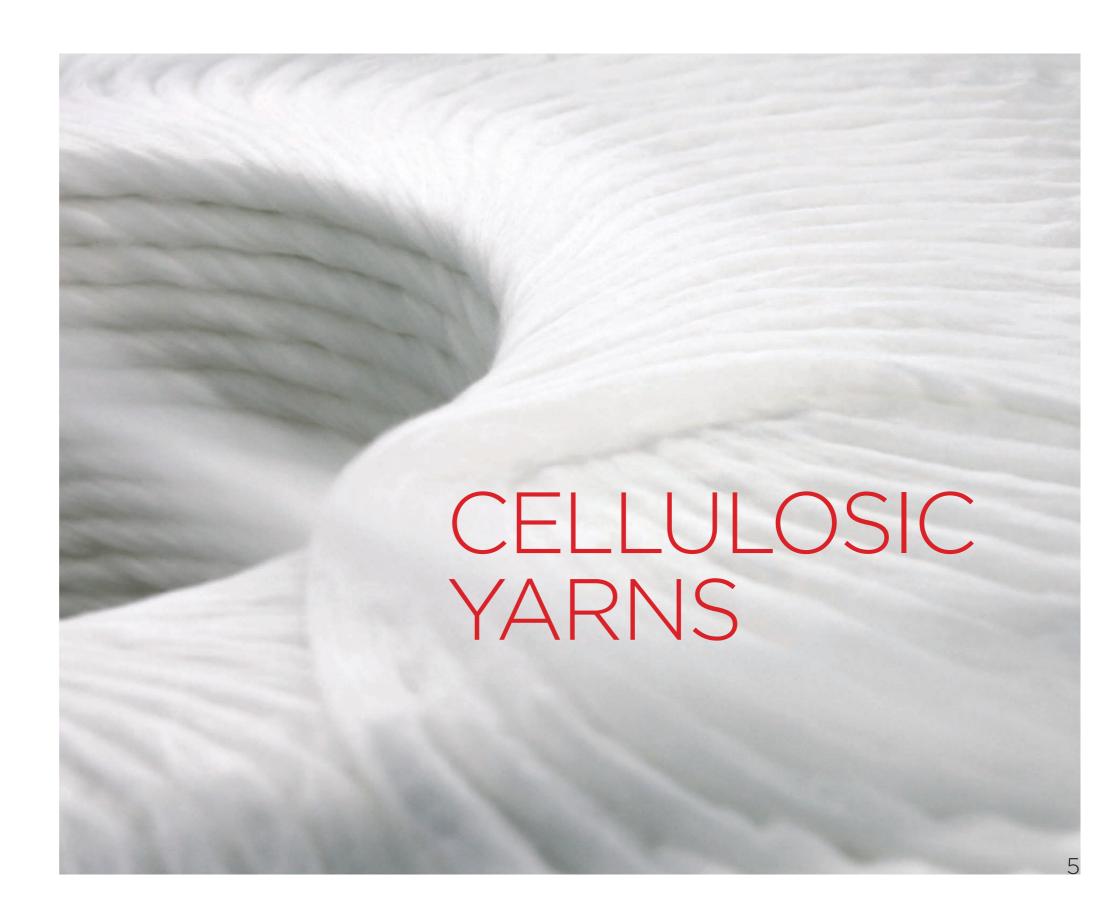

Linz Textil possesses outstanding competence levels in every spinning technology, which is why customers around the world trust us as a partner and efficient full-range supplier.

## Sustainability Certified

### OEKO-TEX / Standard 100

Oeko-Tex is checking for health safety at all stages of processing along the textile value chain.

### **EU Ecolabel**

The EU Ecolabel certifies products with a guaranteed, independently-verified low environmental impact. To be awarded the EU Ecolabel, goods and services should meet high environmental standards throughout their entire life cycle.

### FSC C116037

The Forest Stewardship Council (FSC) is an independent, not for profit, nongovernmental organization established to support environmentally appropriate, socially beneficial, and economically viable management of the world's forests.
